Eishah Iqbal

eishahiqbal@gmail.com | Github | LinkedIn

Motivated Full Stack Developer and Software Engineering student at FAST NUCES with strong expertise in C++, Python, Java and Data Structures. Proficient in HTML, CSS, JavaScript, React, Next.js, Node.js, SQL and Mongo, with hands-on experience in building scalable, high-performance web and desktop applications. Passionate about solving complex problems, writing clean and efficient code, and delivering user-centric solutions that create real-world impact.

Skills

- **Languages:** C++, Java, Python, JavaScript, SQL
- **Technologies:** HTML, CSS, Bootstrap, Tailwind, React.js, Node.js, Next.js, Express.js, n8n, SQL, Mongo, Git, GitHub, Shadcn UI, Winforms
- **Other:** DSA, OOP, Problem Solving, Leadership, Team Management, Communication, Time Management

Experience

Website Developer Intern, Nexium — Summer 2025

- Developed responsive web interfaces using Next.js, Tailwind CSS, and ShadCN UI, improving usability across devices.
- Built a **Blog Summarizer** by implementing web scraping and Urdu translation for localized content processing.
- Developed a full-stack **Resume Crafter** enabling users to upload, edit, and generate resumes from input data.
- Integrated n8n automation workflows to streamline resume generation and improve system efficiency.

Projects

Priorify – AI-Based Sentiment Analysis System — Github-Priorify

- Built an AI-based sentiment analysis system to classify and analyze text data.
- Using Python and NLP techniques to develop a scalable, data-driven solution.

StockForge – AI-Based Stock Market Prediction System — StockForge.netlify

- Built an AI-based stock market prediction system to analyze trends and forecast prices.
- Using Python, machine learning, and data analysis techniques for predictive modeling.

EduNovix – E-Learning Platform — Github-EduNovix

- Built full-stack e-learning platform with role-based access, courses, exams, and collaborative whiteboard.
- Developed APIs and integrated React frontend with Postgres database for interactive learning.

CV Crafter – Resume Tailor — Github-ResumeTailor

- Built full-stack Resume Crafter to create, edit, and generate resumes from user input.
- Integrated n8n workflows to automate resume generation and improve efficiency.

Smart Energy Consumption Planner

- Built smart energy consumption planner to schedule appliance usage and reduce electricity cost.
- Used C++, SQL, and .NET to develop the application.

Education

FAST NUCES Lahore – Bachelors in Software Engineering — August 2023 – June 2027 (Expected)

Punjab Group of Colleges – FSc Pre-Engineering — October 2021 – March 2023
